📍 Dolgoprudny

🌐 github.com/Mr-Punder

SKILLS

Languages: Go, C++, Python

Technologies: SQL, Git, gRPC, s3, MongoDB, Userver, PostgreSQL, RESTfull API, bash

EDUCATION

2020 - 2025

Bachelor's Degree in Applied Mathematics and Physics MIPT

Department of ELECTRONICS, PHOTONICS AND MOLECULAR PHYSICS

ADDITIONAL EDUCATION

2023 - 2024

Advanced Go developer

Online course from Yandex Practicum

EXPERIENCE

01/2024 – 06/2024

Internship

Yandex

- Developed and deployed services
 - Enhanced gRPC API and internal logic
- PostgreSQL / Amazon S3 / Various CI/CD tools

08/2024 – 06/2024

Development team

Yandex

- Developed and created services
 - offline processing of large data sets
 - Integration of various services
- YT / MongoDB / Userver / Codogen / BigRT / Monitoring and deploy systems

x/2021 – x/2024

Physics Laboratories

LNM MIPT/ProFM

- Engaged in various scientific activities, including data analysis and processing.
 - Public speaking experience
 - Developed software for measurement equipment.
- PyQt / Arduino / Numpy / Scipy

PROJECTS

Go, PostgreSQL

Alerting service

github.com/Mr-Punder/go-alerting-service

C++, PyQt

Measuring controller

Small GUI application for controlling measuring equipment

github.com/Mr-Punder/Multiplexor

LANGUAGES

English - B2
